## ***Grading Based on Attendance***

There was some discussion about basing parts of a grade on attendance. Is it legal to use attendance as part of a grade for our classes? What about College Now? It was decided to gather information and submit to Andrea Newton to see how ASA felt.

## ***College Now***

Bert brought College Now Principles draft for review. The document will be posted on the Faculty Council website. We would like to have a group meeting to discuss the Principles draft and invite Darren Ford.

## ***Student Evaluations***

Bert provided a spreadsheet for reporting student evaluations. The form will be posted on the Faculty Council website and information will be provided on Moodle. It was agreed that we would discuss the form with Craig Taylor for further insight into accreditation requirements.

## ***Email Account Expiration***

We talked about email account expiration and are still looking into issues there.

## ***Missing Faculty Council Representatives***

We still need representatives to Faculty Council from Social Science and Math.
