Technology Council Meeting

Boardroom 3 – 5

Present: Escobar, Garrett, Tittlefitz, Bahret, Dane, Williams, Lanning, Pruch

1. Decided that we would meet on the first and third Tuesdays from 3 to 5
 2. Bahret will get a room.
 3. Joe Escobar was elected chair; Pruch is vice-chair by position.
 4. Discussion of length of membership and criteria. Thinking was that the length of service should be limited.
 5. We spent the rest of the meeting working on a technology overview, trying to get a sense of the elephant from the perspective of the 8 blind LCC staff. The rest of the notes should be considered a work in progress.
- Departments that are significant in the technology picture:
 - Information Technology Department (Service, reports to AVP for IT)
 - Infrastructure Services
 - Technology Support Services
 - Archives and Records Management
 - Distance Learning
 - (see online org chart for details)
 - Instructional departments
 - Computer Information Technology
 - Business Technology
 - Science
 - Media Arts
 - Math
 - AT is or is not a special case
 - Non Credit offerings
 - Library
 - Committees
 - Technology Advising and Consulting Team (TACT)
 - Website Steering Committee (WSC)
 - Computer Support Committee (CSC)
 - Strategic Learning Initiative/Instructional Technology Infrastructure (SLI ITI)
 - Banner and Related Systems Coordinating Group BARScg
 - Student Core Team and others
 - Policies
 - Listed under “Information Technology” on the COPPS page

- Other issues we threw out as possible
 - Labs/classrooms
 - Technology in the classroom (PDA, wireless, cheating, etc)
 - Instructional Technology Strategic Plan (Draft)
 - Add experts?
 - Support for personal equipment: policy or operational decision?
 - Student Help Desk: what service level?
 - Training and professional development: we can afford things but not training, does policy favor things over people.
 - Curriculum implementation: technology but not incorporated into curriculum
 - Crossover with Learning Council
 - Policy of opening ExpressLane at 4 AM: operating decision? Policy might encourage better service to students.
 - Policy that requires students to have their own computer? Check out laptops?
