

## Academic Technology Center - Inservice Workshops and Events

### ***Thursday, Sept 25***

**9:00 - 1:00, 19/249**

#### **Academic Technology Center Open House**

Drop by to see all the changes in the instructional technology lab on Thursday or Friday morning. First of all, we are now the Academic Technology Center (ATC), no longer the ITC. We have a new academic technology support desk, new iMac workstations, a new video/audio editing room, and lots more. Come by either morning to tour the ATC, enjoy some refreshments, and enter a drawing for a digital camera.

**9:00 – 10:30, 19/249**

#### **Moodle Introduction**

**Presenters:** Meredith Keene-Wilson and Jim Grandstaff

Whether you teach traditional, hybrid, or fully-online courses, here's a chance to try out a very flexible online course space. Moodle offers numerous options for setting up a class, including discussions, transferring files, announcements, grading, posting syllabi and assignments online, creating links to other Web sites, and even setting up Web pages and wikis! This hands-on workshop will introduce participants to the Moodle software system. For new Moodle users.

**Registration required: email [atc@lanecc.edu](mailto:atc@lanecc.edu)**

**11:00-12:30, 19/241**

#### **Turnitin – Plagiarism Prevention Program**

**Presenter:** Joe Escobar

Recognized worldwide as the standard in online plagiarism prevention, Turnitin helps educators and students take full advantage of the internet's educational potential. Turnitin's plagiarism prevention lets you and your students quickly and effectively check their work, and because Turnitin is completely web-based, compatibility between different computers and operating systems is never a problem. Lane Community College's students and faculty will have fully-functional access to this tool for no cost for the entire 2008-2009 academic year. Come see how your students can use this tool **BEFORE** they turn in their papers for instructor grading. Instead of a simply punitive, "gotcha" tool, students can see and fix their own problems, making college paper writing a true learning process.

No registration required.

**10:30 – 11:00, 19/249**

#### **Academic Technology Center Ribbon Cutting Ceremony**

Come help us celebrate the grand re-opening of the new and improved Academic Technology Center. This ceremony is our pledge of broader and more accessible support for faculty implementers of academic technology. Join us for a ribbon cutting ceremony and enter a drawing for flash drives.

**1:00 - 4:00, 19/249**

#### **Moodle Open Lab**

This open lab is for those already using Moodle who need help with specific Moodle features. The ATC support team, including the Faculty Webmasters, will be available for one-on-one assistance. Drop by to ask a question, or stay all session long to work on your lesson with coaching support.

No registration required.

## ***Friday, Sept 26***

**9:00 - 12:00, 19/249**
