1:30-2:20

Special Event:

The Last Album: Eyes from the Ashes of Auschwitz-Birkenau Dr. Ann Weiss

In 1986, a young research librarian, on a research trip to Auschwitz, discovered a hidden collection of family photographs taken from the deportees from one of the last transports to arrive at the camp. The Nazis tried to destroy the cultural memory of the Jews as they destroyed the Jews themselves. Hear Dr. Weiss tell of her 20+ year work to identify and restore the memory of these individuals and families, and celebrate their lives as they would have wanted. Location: Building 19/Room 205

FPD Open House: Learn about FPD programs/application processes/ meet committee members. Location: Building 19/Room 106
