#### For 2007-2008 Implementation

#### **Section III: Planning for fiscal sustainability:** (Discussion begins on September 21<sup>st</sup>)

This section should be developed by faculty and staff in the units working with their manager. The work on this section will start during fall in-service and must be submitted by November 15, 2006. The manager of the unit must adhere to the deadline and submit a proposal from the unit by the deadline. Please summarize your ideas in the tables below; additional narrative may be added outside the table, if necessary. Guaranteed proposals and identified Budget Reductions for 2007-2008 should also be listed in the Excel spreadsheet (FY08 Budget Proposals template.xls) with detailed budget information that will be submitted to the budget development process and will focus on Fund 111100.

#### **Preamble: Planning parameters included at the Institutional level**

**Example:** 

- \$6 million recurring deficit for FY 08
- Recovery of deficit will occur in the general Fund 111100
- 2% FTE growth over 2005-2006
- **■** \*\*\*\*\*\*

#### **Division Planning Parameters:**

\*\*\*\*\*

#### 2007-2008 (FY 08) Incremental changes:

#### 1. Revenue Enhancement

<u>Any</u> reduction in full-time faculty will severely limit ALS' ability to implement the creative revenue enhancement features below:

Descriptions	Impact	Consequences	\$	R/ NR
Only possible if Title III grant awarded. Create a developmental education learning community in collaboration with First Year Experience team. Consider beginning, intermediate, and advanced development level students.	Increased retention Puts in place research-based best practice.	Keep 10% of class that might have dropped out after 1 year for additional year to gain 12 credits x 3 terms x 6 students = \$15,012 in tuition Very theoretical estimate, but best practice	\$15,012 Very theoretical estimate, but best practice.	Not guaranteed R
Implement online time management class, modeled after time management component developed for Global Health with 06-07 curriculum development.	Increased skills Increased retention Materials already developed. Cost = \$863 for 1 credit L5 12 students would offset instructor cost. Wouldn't use classroom space. 510/11 or 46	Time consuming for office staff to build/track 1 credit classes. Must be created in blocks of 3 for contract faculty or offered to part-time faculty to decrease FTE assignment issues.	estimated \$556	Not guaranteed R

	courses. hiring PT faculty training PT faculty participation in strategic innovations such as First Year Experience individual work with students, critical to success in developmental courses. Extra duties normally assigned to full- time faculty. Increases duties/responsibilities for .458 FTE Division Co-Chair. Increases duties for .75 administrative specialist and 1.0 admin coordinator to make up for increase in # of part-time faculty.	<ul> <li>enrollment</li> <li>reduced FTE</li> <li>reduced faculty involvement in college-wide projects such as Supplemental Instruction, SAGA, Diversity Council, Eaculty Council, FACULY Council, FPD and other mainstreamed projects.</li> <li>Part-time faculty will be unable to fulfill extra duties normally assigned to full-time.</li> <li>45 credits = more than 2 part-time instructors who will need offices, support, supplies, payroll, training and mentoring.</li> </ul>	

#### 2008-2009 (FY 09) and beyond, Fundamental changes:

#### 1. Revenue Enhancement, Efficiencies and Productivity 2008-09 and beyond

Explore efficiency of longer class periods (more time for collaborative learning).

Offer four-day week (with professional development and meetings on Fridays) to save students' gas/commute. Use Friday for workforce training, Friday-only classes.

Look at scheduling as a SYSTEM instead of as dept by dept to use classroom space more efficiently. Invest more in faculty development on using technology in teaching.

Expand childcare resources for students.

Develop nursing program for non-native speakers (ALS interested in helping).

Require technology skill outcomes for graduation.

# 2. Efficiencies and Productivity Ideas need development

component in more ALS	success, within class, dept and			
courses.	for students entering			
	certificate/degree programs.			

#### 3. Budget Cuts – none suggested

Description	Impact	Consequences	\$ R/NR

guiding principles – What we want to remember while we look at options.
ALS students don't always have access to technology. Maintain level of individual assistance &
support
Use technology as a tool, (means to an end not end in itself)
Keep "back-ups" to technology so we aren't lost if something goes wrong.
