

Social Science 2008-09 Initiative: Human Services Video/DVD Project

Summary:

Videos and/or DVDs for classroom use with Carl Perkins funds.

Description:

Funding of this initiative would allow the purchase of some new DVD's to be used in the classroom. New video resources provide current information as well as examples of skills and activities used by human service workers. The DVD's we plan to order would support the new mini-certificate in Aging that started this year, as well provide resources for our new class in Advanced Counseling Skills. Additionally, we would like to update information related to multicultural competence that can be used in our Cultural Competence in Human Services class as well as in other classes.

Question Not Answered

How will funding this initiative increase or sustain the academic achievement and technical skills attainment (GPA of 2.0 or better) of Career and Technical Education students?

The purchase of these video resources directly supports the class objectives outlined for each class within the Human Service Program

How will funding this initiative increase or sustain the number of CTE students that graduate or receive a one year certificate from Lane and help prepare the students for employment?

Most of the videos requested offer demonstrations of skills and techniques that students are learning in the classroom. Through observation, students can identify and breakdown specific interviewing and counseling skills. This is a micro skills training approach, which has been well researched and documented as an effective approach in teaching these skills to students.
