

In spring of 2008 the division hired Berri Hsiao and Angela Martinek to fill two of our vacant full time instructor positions. Though they both plan to teach across the math curriculum, Angela brings expertise in engineering and Berri in math for elementary education. They will be an asset to the division and we are pleased to have added faculty positions after losses over several years due to retirements, leaves, moves, and increased course offerings in engineering.

Strategic Direction

- Build organizational capacity and systems to support student success and effective operations.

Learning Plan Goals

- Address the need for direct student support from faculty and staff as a crucial element of the learning environment

Student Affairs Plan Goals

- Enhance the Lane workforce to best promote student success.

College Council Priorities
