

MTH 052 (Math for Introductory Physical Science) was initially offered as an online course in 2007/08. The combined retention rate was 85% and combined success rate was 76%. Funding from Distance Education was awarded in Spring 2008 and has been utilized (along with some of the funding from the developmental algebra initiative) to develop and refine the online course materials necessary to increase enrollment, retention and success for this offering, and meet the needs of the Medical Office Assistant program.

Strategic Direction

- Foster the personal, professional, and intellectual growth of learners by providing exemplary and innovative teaching and learning experiences and student support services.

Learning Plan Goals

- Commit additional resources to the creation, development, and implementation of distance learning courses and degree programs.
- Curriculum enhancement.

Student Affairs Plan Goals

- Commit to a culture of routinely assessing programs, services, and learning to encourage continuous quality improvement.

College Council Priorities

- 1.b. Enrollment Management: Recruitment and Retention
