

CCS 2010-11

CAHM Goal: GREENING of the CAHM Program

Summary:

With greater national awareness of sustainability and current industry trends moving towards sustainable front-of-house and kitchen operations, the GREENING of the instructional programs is paramount.

Description

With greater national awareness of sustainability and current industry trends moving towards sustainable front-of-house and kitchen operations, the GREENING of the instructional programs is paramount. The existing hospitality management curriculum will be expanded to include Sustainable Standard Operating Procedures (SSOP), and the culinary arts curriculum currently provides classroom opportunities to study sustainable food operations and the use of local farms and products, including the Lane Learning Garden. Program surveys lead us to believe that GREENING of the instructional programs will lead to increased enrollment over time.

Questions and Answers

How is the initiative linked to the Unit Plans most recently submitted?

- 1. How does it continue the achievement of those goals?**
- 2. If this is a continuation of an initiative started last year, make sure that relationship is clear.**

How is this initiative linked to the efficiencies and productivities plans you had last year?

- 1. How does it continue the achievement of these plans?**
- 2. If this is a continuation of an efficiency or productivity plan started last year, make sure that relationship is clear.**

This initiative is a continuation of a process started last year.

This initiative advances the implementation of a long-term process improvement.

Describe the resources needed:

No General fund contribution needed. Fund 6 revenues will support training.

What specific measurable program outcomes do you expect to achieve with this initiative? The outcomes should be specific enough to be measurable. Also, outline the method that will be used to determine the results.

Efficiencies and Increased Productivity; Revenue Enhancement.

Department Priority:

3

Unit Resources:

Currently, more time of existing human resources is needed to successfully infuse sustainable education into the existing curricula and embed instructional and student outcomes into course syllabi.
