CAHM Goal: Refinement of First-Year and Second-Year Student Experience in the CAHM Program

Summary:

Enrollment in the Culinary Arts Program has been increased to 76 students in continuing to maximize the number of students in the program. We would like to explore the opportunity to expand that number to 96 students.

Description

Enrollment in the Culinary Arts Program has been increased to 76 students in continuing to maximize the number of students in the program. We would like to explore the opportunity to expand that number to 96 students. Working with Campus Food Services for the redesign of the Center Building first floor facilities, we will develop new strategies and expand our footprint with the Bond remodel. If enrollment is to grow beyond our current numbers and the Second-Year student retention continues to improve, instructional human resources such as additional faculty members will be needed along with more instructional support specialists, student assistants, student ambassadors, and peer tutors. Currently, plans to successfully integrate the First-Year culinary student lab experience into the Food Services kitchen environment will greater facilitate hands-on practical experience and provide an overflow relief for both years of students.
