

Cottage Grove 2010-11

Added Software for Computer Lab

Summary:

Updated software is needed to teach PhotoShop classes in partnership with the Cottage Grove High School College Now classes.

Description

The updating of PhotoShop software would allow students in an increasing number of sections of College Now classes that use the Cottage Grove campus computer lab to work with current software. Recently, the number of sections has increased from one per year to three per year. This partnership with Cottage Grove High School is valuable for both the continued collaborations between the two campuses and for recruiting students to the Cottage Grove Center.
