

Advanced Technology Division

Unit Plan Section III: 2011-2012 Implementation Goals

PROGRAM: Construction Technology		SUBMITTED BY: Leonard Keen	
LIST GOAL	ACTIVITIES	TIMELINE	BUDGET IMPACT
<p>Priority # 1 Provide a training facility that can compares to industry standards by enhancing class/lab spaces. Maintain programs technology level to changing industry standards. Become more efficient with instructional delivery methods to reach students with all learning styles.</p> <p>Note: this is a continuation from last years unit plan.</p>	<ol style="list-style-type: none"> 1) Create hourly budget for non-classified staff to assist faculty with the increase of student FTE in the construction program. 2) Students began building a model home structure in the construction lab in 2007-2008, this project was not completed due to lack of funds. This gives the student hands on practical experience in the construction lab. 3) Resources for Women in Construction, the Building Trades, and other Non-traditional Occupations. According to the US Department of Labor, women comprise almost 25% of the labor force in the building trades. There are a large collection of resources for women in construction and the building trades. Provide the essential construction contractors information, tools, community and resources needed to keep women in construction thriving. 4) Continue to strengthen the connection with the industry professionals, encouraging a greater participation with students and furthering the partnerships with in the community. 	<p>Completed by fall 2011.</p>	<ol style="list-style-type: none"> 1) \$4,500 Increase GF Program budget. 2) \$4000 Material and Supplies. Carl Perkins 3) \$2,000 Carl Perkins 4) No Cost
