For a successful Apprenticeship transition, the ATD will need faculty oversight. By providing release time to an existing faculty, that person would already have knowledge of COPS and ATD practices. Note: Several ATD instructors currently teach classes used by both apprentices and ATD students. It is recommended that one of these instructors is selected for oversight.

This is a new goal and a new initiative.

The maintenance of apprenticeship is dependent on LCC's ability to provide training that is consistent with the needs of the apprenticeship community. Furthermore, the training must change as trade technology changes. This maintenance will be the essential function of the lead and, as such, will receive feedback from the Apprenticeship Advisory committee about successes and failures.
