

IT 2009-10

Accomplishment Description:

Student Internet Access/Bandwidth Increase

The technology fee funding allocated to this initiative was used to pay a portion of the costs to provide Internet services to the college. Lane purchases its Internet access from Lane ESD, and the allocation of funding provided to this initiative paid the student related portion of that cost.

Internet access for students is vital for their success in any and all programs at Lane. The IT department maintained steady and reliable internet access for Lane's students and employees during this past fiscal year. Due to increase usage of the Student Access Network (SAN) wifi services, the bandwidth was increased by 50% for the 09-10 year.

Strategic Direction

- Foster the personal, professional, and intellectual growth of learners by providing exemplary and innovative teaching and learning experiences and student support services.
- Create, enhance, and maintain inviting and welcoming facilities that are safe, accessible, functional, well-equipped, aesthetically appealing and environmentally sound.
- Build organizational capacity and systems to support student success and effective operations.

Learning Plan Goals

- Enhance student success and retention
- Curriculum enhancement.
- Facilities enhancement.

Student Affairs Plan Goals

- Assess the general college environment, including adequate academic and non-academic spaces for students.
- Create a Welcoming, Inclusive, and Responsive Environment.
- Ensure success-oriented systems and experiences.

College Council Priorities

- 3. Efficiencies

- 4.3 Responding to unit plans/council plans: Enhancing Classrooms
- 5.2 Instructional Redesign: Leveraging Technology
