

Notes from Green Leads Meeting

June 2, 2009

Present: Art Hill, Mary Jeanne Kuhar, Melissa (for Stephen Schoonmaker), Mary Kramer, Chris Stickles, Sonya Christian, Kelli Walker, John Mckee, Val Martinez, Lori Gates, Susan Tinker, Sue Goff, Cynthia Risan, Debbie Moller, and Brenda Brecke

Group was welcomed and thank.

Brenda shared the green development work ahead. Recognized the aggressive timelines AND that the first response for information is just that – there will be additional opportunities to put the details to the new/expanded/enhanced programs.

Green groups identified with roles. Brenda will send governance and staffing names to all.

Process, timelines were reviewed – call for questions and discussion

Templates reviewed. Question on where to put additional comments – response just add in COMMENTS: in the appropriate box or use comment from Word. If program/project falls into two of the jobs columns just put in one box and add comment in second box See (what ever box) .

Several remarked that they appreciated the samples.

Susan Tinker asked about the rural plan coming from TOCOA. Brenda assured the group that this was one of many projects being developed and that involvement did not preclude colleges from participating in other partnerships or applying alone for funds. The intent was to be inclusive in the planning.

Discussion on distribution – we will not know until we see what colleges send in but each college has a voice and will be involved in the process

No additional questions.

Next conference call June 11 at 3:00 – agenda will be sent prior to the meeting.
