Visiting Artist Lecture

LCC Art Gallery: 1:00PM, Thursday, February 16

Life is Miraculous: Healing, Creativity and Movement

Barbara Mindell is an artist and educator who teaches the art of transformation as a bodily process.

Barbara had a profound life/death experience as a young adult that brought her into the world of healing and regeneration. Through her work with Continuum, her metamorphosis from injury to wholeness has become a catalyst for healing.

Barbara is an Authorized Continuum Teacher, is on the staff at the Continuum Studio in Santa Monica, CA and teaches Continuum workshops, classes and a combination of Continuum, Art and The Creative Process throughout the U.S. and Canada. She also maintains a private practice in Los Angeles.
