

Lane Community College 2008-2009 *Profile*

Foreword

The Lane Community College *Profile* contains information dealing with enrollment, student intent and outcomes, student and staff characteristics, institutional effectiveness, finance, facilities, and the college district. This edition of the *Profile* highlights 2007-08 academic year data within a framework of data from preceding years. It also presents Benchmarks based on 2008-09 data that were presented to the Board of Education during the 2009-10 academic year.

Goal

This is the eighth edition of Lane's *Profile*. Our goal in producing this annual document is to provide frequently requested information about Lane's students and staff in an easy-to-use format. An electronic version of the *Profile* is posted on the IRAP website at <http://www.lanecc.edu/research/ir/profile.html> .

Thanks and Acknowledgements

Thanks to Sylvia Sandoz and Elaine Marsh who were instrumental in preparing this edition of the *Profile*.

What do you think?

We hope the *Profile* will be a useful reference for planning, program assessment, budgeting, grant writing and more generally, in better understanding Lane and our students. We welcome your comments and suggestions to help us make next year's edition even better.
