

Key Benchmarks -- LANE Community College

Lane Transfer Students Admitted to the Oregon University System -- Graduating & Stopping Out (2002-03 Entering Cohort)

Students Graduating from OUS / UO

Students Stopping Out from OUS / UO

◆ A recent study by OUS researchers tracked cohorts of Oregon community college students who were admitted as transfer students* to the OUS in 2002-03. The study also tracked cohorts of OUS Freshmen by institution. Lane's cohort of 2002-03 transfer students admitted to OUS numbered 489; the UO cohort of freshmen numbered 3,271.

Analysis and Action: This Benchmark is related to: 1) Lane's Primary Desired Outcome for Students #4 -- "Transfer Students Attain Academic Performance Levels at 4-Year Institutions Comparable to What They Achieved At Lane" and 2) ODCCWD Key Performance Measure # 15 -- "Progress of Transfer Students -- percentage of community college students who transfer to OUS and demonstrate progress by returning for the second year."

The graphic above shows Lane's cohort of transfer students graduated from OUS institutions at nearly the same rate as the cohort of UO Freshmen graduated from the UO. By using six years to track graduation for transfer students (presume Lane transfer students were enrolled in Lane 2000-01 and 2001-02 and in 2002-03 through 2005-06 they were in an OUS institution), we see that **68.5%** graduated compared to a graduation rate of **69.6%** for the 2002-03 cohort of UO Freshmen over six years (2002-03 through 2007-08). Additionally, the percent of Lane transfer students that stopped out of OUS institutions was the same as the stop out rate for UO Freshmen (26.4%). Finally, a greater percent of Lane transfer students who earned an AAOT graduated from OUS institutions compared to students who transferred to OUS without earning an Associates degree (79.8% vs. 73.1%).

* Admission as a transfer student to an OUS institution required students to: a) have 24 credits earned after graduation from high school (for the UO, it was at least 36 credits) and b) be enrolled for at least 12 credits in their first term in the OUS institution.
