

# The Strategic Plan

## Vision

Transforming lives through learning

## Mission

Lane is a learning-centered community college that provides affordable, quality, lifelong educational opportunities that include:

- Professional technical and lower division college transfer programs
- Employee skill upgrading, business development and career enhancement
- Foundational academic, language and life skills development
- Lifelong personal development and enrichment, and
- Cultural and community services

## Core Values

### Learning

- Working together to create a learning-centered environment
- Recognize and respect the unique needs and potential of each learner
- Foster a culture of achievement in a caring community

### Diversity

- Welcome, value and promote diversity among staff, students and our community
- Cultivate a respectful, inclusive and accessible working and learning environment
- Work effectively in different cultural contexts to serve the educational and linguistic needs of a diverse community
- Develop capacity to understand issues of difference, power and privilege

### Innovation

- Support creativity, experimentation, and institutional transformation
- Respond to environmental, technological and demographic changes
- Anticipate and respond to internal and external challenges in a timely manner
- Act courageously, deliberately and systematically in relation to change

### Collaboration and Partnership

- Promote meaningful participation in shared governance
- Encourage and expand partnerships with organizations and groups in our community

### Integrity

- Foster an environment of respect, fairness, honesty and openness
- Promote responsible stewardship of resources and public trust

### Accessibility

- Strategically grow learning opportunities
- Minimize financial, geographical, environmental, social, linguistic and cultural barriers to learning

# College Goals

Continuing on the journey to become a learning college requires: Placing students and their learning at the heart of what we do, and creating conditions where everyone can do their best work.

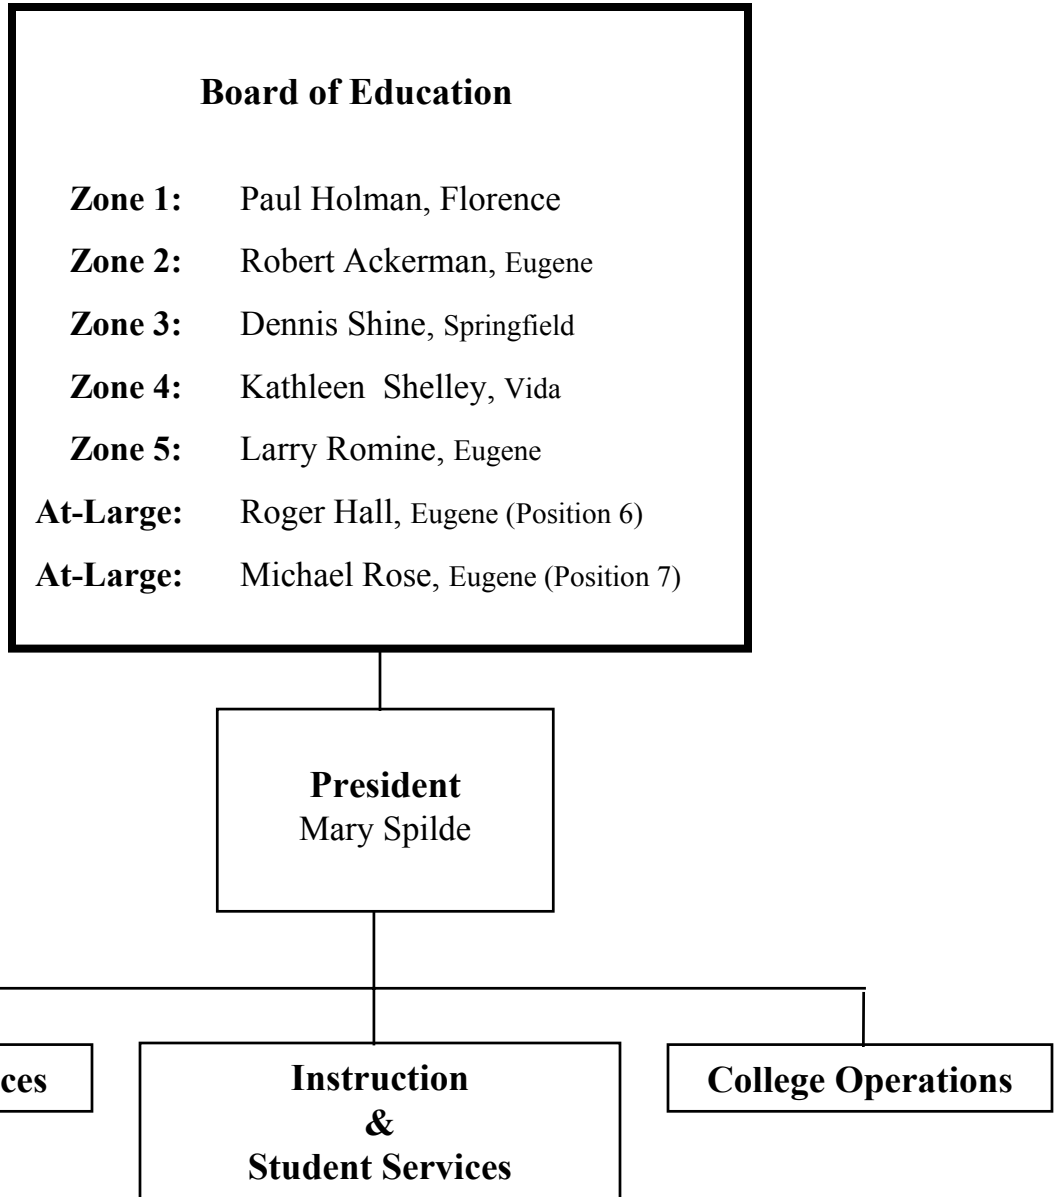

Therefore, to focus the college during the next 18 months, we need to implement the following four goals:

- Financial stability
- Building organizational infrastructure
  - Self-study
  - LASR
  - Mainstream innovation
- College climate
  - Human Resource Systems
  - Student Retention
  - Relationships
- Implementation of BWEL reorganization
  - Bring the conference center to profitability
  - Reinvigorate contract training and linking with Continuing Ed and linking Continuing Ed with credit units

## Council Structure

**Governance Structure:** The Governance Structure primarily deals with policy issues and issues that have campus-wide significance and impact. Any committee, task force, or council that ultimately makes recommendations to College Council is part of the Governance Structure.

**Academic Council:** The Academic Council is appointed by the President to advise the President about rules and policies concerning the maintenance of high academic standards. The council acts on student petitions covering extension of deadlines, program waivers, and graduation requirements.

**College Council:** The mission is to formulate and recommend policy to the President. Membership includes college president, vice presidents, assistant to the president, representatives from faculty, classified, student services, instructional services, non-instructional services, management steering committee, Management Council, LCCEA, LCCEF, and four representatives from ASLCC.

**Classified Council:** Classified Council provides a means for classified staff to effectively influence college policy and decision making. The Council seeks to build positive relationships among classified staff, and between classified staff and the rest of the LCC Community. The Council seeks to join with other groups in the LCC Community, working together to promote educational excellence and the welfare of the college community.

**Faculty Council:** Faculty Council contributes to the quality of education at Lane by providing an effective forum for faculty participation in governance.

**Management Council:** This group is a representative forum that gathers, clarifies, synthesizes and presents the thinking of members of the management employees' group on issues of importance to the college. They serve as a resource to the executive leadership of the college and represent managers as part of the shared governance system at Lane, including representation on College Council.

\* Fall term 2002 data. **Total staff** includes: contracted faculty, part-time faculty, contracted classified, administrators, and management support. **Full-time staff includes** contracted faculty, contracted classified, administrators, and management support.

\*\* Oregon community colleges implemented a new FTE formula in 1995-96. The new formula FTE figures are 28-30% higher than FTE derived from the old formula. Consequently, comparison across the 1995-96 transition year of FTE enrollment is problematic.
