

# Lane Community College 2001-2002 *Profile*

## *Foreword*

The Lane Community College *Profile* contains information dealing with enrollment, student intent and outcomes, student and staff characteristics, institutional effectiveness, finance, facilities, and the college district. The *Profile* highlights 2001-2002 academic year data within a framework of data from preceding years. It also presents a number of Benchmarks that are based on Fall 2002 data.

### **Goal**

This is the sixth edition of Lane's *Profile*. Our goal in producing this annual document is to provide frequently requested information about Lane's students and staff in an easy-to-use format. We regret that we are distributing this edition so late in the academic year – converting to the Banner administrative software has diverted many of the resources in the past year that are usually devoted to preparing the *Profile*. We're looking forward to working with the Banner system next year as we prepare the seventh edition of the *Profile*.

### **Thanks and Acknowledgements**

Thanks to Sylvia Sandoz, Elaine Marsh and Patsy Escobar who devoted many hours to preparing this edition of the *Profile*.

### **What do you think?**

We hope the *Profile* will be a useful reference for planning, program assessment, budgeting, and grant writing. We welcome your comments and suggestions to help us make next year's edition even better.
