

SAGA

**They come
From all directions
To form a meeting
Of the minds
To try to
Understand
What brings them
Altogether
And makes them
Want to stay**

**As the saga unfolds,
Ideas come to light;
Best practices
Have been found
To let all know
What can be done
To strengthen
The bond
And make a place-
A community
Of sorts-
Of learning**

**But first
The energy is needed
To get fired up
Resources for success
And advising
Hidden among
The many walls-
People remember
How they are
Made to feel.**

**Roads come together
Loosely woven
By goals and dreams;
Success on the mind
And in the heart
Giving of attention
With hope of
Retention-
A promise of help
And a Fair start.**
